The success of a *family* business

The family business founded by Rosa and Horacio Correia, with the active involvement of their three daughters and son, stands as a remarkable success story in the concrete industry. Through a shared vision of quality and innovation, this company has established itself as a leader, building on expertise and craftsmanship passed down through generations. The significant presence of women in a sector historically dominated by men highlights the forward-thinking and inclusive vision of this family, which places diversity at the heart of its growth. Their family leadership is defined by a keen ability to anticipate market needs, unwavering commitment, and a constant passion for excellence. Through a collaborative approach and a unified vision, the company continues to grow, solidifying its position as a key player in the concrete industry.

FROM LEFT TO RIGHT:
Jessye Correia, Sabrina Correia, Maria Correia, Bobby Correia, Rosa Ciccarello and Horacio Correia.

Innovative products and a creative team

After more than 25 years in business, Rinox continues to thrive thanks to the dedication of every family member. The foundations laid by founders Horacio and Rosa, centered on core family values, have fostered loyalty among employees and customers. Innovation, growth, loyalty, creativity, and expertise are at the heart of its values. Specializing in masonry and landscaping, the company has expanded its reach across Canada and the United States while continuing to grow.

Rinox offers three distinct collections that embody elegance, prestige, and quality, enabling the creation of unique projects. Whether for the façade or outdoor landscaping of a residential or commercial project, Rinox stands as your essential partner for designs that combine trend and excellence. With meticulous attention to detail and unmatched expertise, we turn your ideas into remarkable creations, always ensuring adherence to the highest quality standards.

Made in Canada

Rinox products are proudly made locally. We offer cutting-edge concrete products with carefully selected, stable, and precisely calibrated components to ensure superior quality. By choosing Rinox, you're not just selecting exceptional products that combine innovation and performance—you're also making a meaningful contribution to supporting the local economy.

The strength of a group

The Rinox Group brings together manufacturing companies specializing in premium products for both the interior and exterior of your home. With our extensive range, you can design aesthetic spaces that combine durability and innovation. Whether you're looking to transform your façade, create a garden, or enhance your interiors, our companies offer tailored solutions that blend elegant design with robustness.

With the Rinox Group, bring exceptional projects to life that reflect your style and stand the test of time. We aim to create product combinations that seamlessly come together to realize unique projects. Rinox masonry products paired with Rialux aluminum siding provide the perfect combination for an outstanding project. For a complete vision, our landscaping products integrate perfectly with our Azoria fiberglass pools, turning your backyard into a true dream oasis.

Masters in their field

The expertise and dedication of a passionate team drive the development of new products. Over the years, the Rinox Group has distinguished itself in the premium construction materials industry with its unique and timeless designs. The ongoing goal is to stay at the forefront of technological trends to meet the expectations of industry professionals.

Inground fiberglass pools

RINOXGROUP.COM

A complete project signed Rinox Group

This project perfectly illustrates the expertise and versatility of the Rinox Group, seamlessly integrating its various divisions to create a truly spectacular outdoor space.

There are several benefits to such a combination. Azoria fiberglass pools are durable and low-maintenance, just like Rialux aluminum siding, which is lightweight and rust-resistant. The bricks and slabs, on the other hand, ensure unmatched longevity. Together, these materials create a space that is not only aesthetically pleasing but also functional and long-lasting.

Moreover, incorporating multiple product lines into a single project provides unparalleled design flexibility, allowing you to play with textures and colors to craft a harmonious and adaptable space.

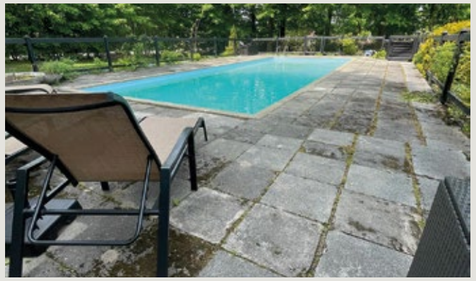
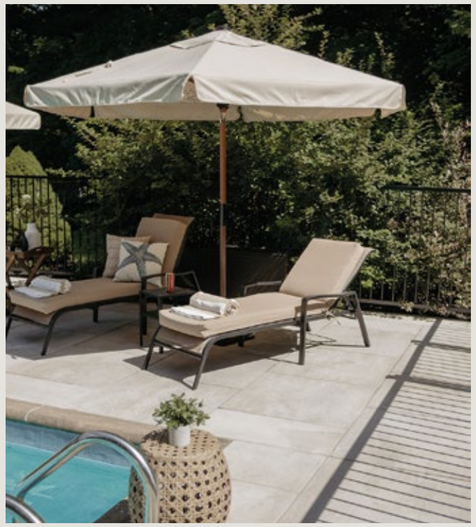
REMARKABLE TRANSFORMATION

Maripier Morin and Jean-Philippe Perras embarked on the renovation of their home with a clear vision: create a space that combines timeless elegance with lasting comfort.

Rinox is proud to have been a key partner in transforming their property, a project where refined aesthetics blend seamlessly with functionality.



BACKYARD BEFORE TRANSFORMATION



EUROPEAN INSPIRATION

Their outdoor space was completely reimagined to create a welcoming environment inspired by the serene ambiance of Tuscany. The Proma Quadra slabs, in the soft and natural Beige Oka tone, were chosen to enhance the area, bringing a modern yet warm touch. This choice of materials preserves the property's authentic character while offering exceptional durability—perfect for daily use and hosting family and friends.

This project goes beyond a simple renovation; it redefines the experience of home living, where every detail has been thoughtfully considered to enrich outdoor moments. Thanks to Rinox, the family can now enjoy a dream outdoor space designed to evolve with them over the years.

« We wanted our backyard to be comfortable, *minimalist,* and sleek. Rinox made it possible for us to achieve this. »

The Art of Outdoor *Design*

PROMA XL
WHISTLER

MONOCHROMATIC SPACE

In the world of outdoor design, sleek and minimalist aesthetics have emerged as an essential trend. This approach emphasizes simplicity, functionality, and harmony, creating spaces that are both elegant and calming. By focusing on a monochromatic color palette, often dominated by neutral tones, this style highlights the importance of each element, allowing the eye to rest on the essentials. The deliberate use of a single color, such as pure white or soft gray, helps establish a serene atmosphere. This thoughtful choice accentuates architectural details, creating a cohesive and inspiring space where every element plays a role in the overall design.

PROMA XL
WHISTLER

FRESH GREEN

The incorporation of greenery and living plants adds a touch of freshness and vitality. Whether through linear slabs, garden steps, or strategically placed inserts, this approach creates a striking sense of verticality and expansion.

Discover our Lookbook:

The **PROMA** Collection

#1 BEST SELLER

A pioneer in the concrete paver and slab industry, Rinox has revolutionized landscaping with the Proma Collection, recognized as the number one choice for contemporary projects. Featuring avant-garde designs and large formats, it brings a bold, modern touch while standing out for its popularity. Its colossal dimensions minimize joints, creating a clean, sophisticated surface that enhances the sense of space.

For the *future* of landscaping

SUSTAINABLE SOLUTION

These pavers require minimal maintenance, making them a practical and durable choice for your landscaping needs. Their ability to mitigate heat island effects by retaining water in the soil also helps create a more pleasant and eco-friendly environment. With their innovative design, these pavers are not only functional but also add a modern touch to your projects. Rinox permeable pavers actively contribute to environmental preservation while enhancing your living space.

REDUCING FLOOD RISKS

Rinox permeable pavers are an innovative solution for your outdoor spaces, offering numerous environmental and practical benefits. Their unique design helps prevent soil erosion while facilitating the natural flow of rainwater, thereby reducing the risk of flooding. With their ability to absorb runoff and filter pollutants, they enhance stormwater management in urban areas.

azoria

DOLPHIN BRITANNIA
ARCTIC GREY

Aquarino x Dolphin

Aquarino and Dolphin have merged, promoting the group to become the largest manufacturer of fiberglass pools in Canada. Initially, they remained two distinct companies; however, we have recently joined forces under a new brand name: Azoria. This merger aims to leverage the complementary strengths of both companies and offer a broader range of products catering to the needs of backyards of all sizes and styles, whether urban or rural. By combining our expertise and resources, we are better positioned to innovate, enhance the quality of our products, and provide exceptional service to our customers.

The CovaTec difference

The Covatec difference goes beyond ease of installation. It's in the superior quality of materials we use to manufacture each pool, ensuring every model stands up to the demands of time and environment. We combine premium materials with groundbreaking design features, allowing us to continuously improve upon what exists in the industry.

All of our products meet industry *standards*

INNOVATIONS

Recognized for its avant-garde products, Rinox has made it its mission to consistently and accurately respond to constantly changing market trends. Its natural stone-like products are undoubtedly the most remarkable and the most appreciated by customers.

30 PATENTS

Rinox has developed several unique and innovative products with patents. Inventions that facilitate installation and allow customers to have exclusive and superior products.

Extremely *rich* and durable colours

RINO XTREM

RINOXTREM TECHNOLOGY

RinoXtrem technology enables the production of exceptionally durable and ultra-vibrant, color-fade resistant products. A unique technology that stands out in the industry because the color is found throughout and within the product. Our products are designed in a meticulously controlled environment. We carefully observe humidity and density levels and rigorously analyze all factors surrounding the production process. The integrity of our colors is due to the perfect blend of quality control and the high performance of our state-of-the-art equipment.

25-year transferable protection on our products including installation*.
