IMPORTANT: NOTE RELATED TO PAVERS

The number of regular units per square foot (m²) indicated takes into consideration a sand joint which will vary depending on the paver model. To obtain an even distribution of colour, it is recommended that you install paving stones from more than one cube at a time. Some pavers are sold by complete cube, by layer or by piece. Please check with PERMACON customer service when ordering.

TERMS AND CONDITIONS OF SALE

PAYMENT TERMS: Net on the 15th of the month following delivery date. Interest at a rate of 18% per annum may be charged on accounts which are overdue.

CARTAGE: Transportation charges apply (including one (1) hour for unloading). For more information, please contact Customer Service. An additional unloading or waiting time shall be invoiced at the rate of \$85 per half-hour extending from 7 a.m. to 7 p.m. and \$115 per half-hour from 7 p.m. to 7 a.m., weekdays only. These charges are subject to change without notice and do not apply during the thaw period.

SALES TAXES: All taxes will be added at the time of the sale when applicable.
N.B. All modifications to the applications of federal and provincial taxes can prompt changes without notice.

PALLETS: A \$40 charge will be invoiced to the customer for pallets to be returned. It is the customer's responsibility to properly store pallets on site and manage their return. A refund will be granted for any pallets identified as Permacon which are in good condition (i.e., which do not require modification or repair and can be directly reused by Permacon in its day-to-day operations). The condition of the pallets must also comply with safety standards for the packaging of Permacon products when they are returned by the customer to its plants or picked up simultaneously during a delivery to the same job site. Permacon offers a pallet pickup service within an 80 km range of its plants. A fee of \$5 per pallet will be charged if the pickup is made expressly at the customer's request. A minimum charge of \$425 per pickup, per site will be invoiced for all regions. Please note that to benefit from this service, the customer must make a request to Permacon, then stack the pallets near a road accessible to vehicles.

RETURN OF MATERIAL: Permacon will only accept the return of complete cubes in perfect condition. A handling charge of 20% of the total cost will be applied, in addition to transportation charges where applicable.

ADDITIONAL CONDITIONS: The quantity and quality of all products delivered on a job site shall be accepted by the customer, its representatives, employees or agents at the time of delivery. Such acceptance shall be considered as final. Interpretation of plans and specifications is the sole responsibility of the customer. Permacon declines any responsibilities for delays caused by accidents, equipment breakdowns, strikes, lockouts, material shortages or any other event beyond its control. Prices are subject to change without notice.

RECOMMENDATIONS: It is very important to always order by unit because cube quantities may vary.

To guarantee optimum quality of service, we suggest that orders are confirmed in advance, giving at least 48 hours' notice for delivery.

CAUTION

If a cube is not stacked correctly, it may fall and cause serious personal injury.

Safe and proper storage is a process best performed by skilled professionals. We suggest that staff be fully trained in all applicable regulations and techniques. In addition, we recommend the following:

- Use a storage area with adequate load-bearing capacity and ground level;
- Use suitable handling equipment (minimum capacity 3,500 kg/8,000 lb);
- Always ensure vertical alignment when stacking cubes (see Fig. 1);
- Depending on the product, stacking 3 to 5 cubes is generally considered efficient and safe (see note 2);
- Use caution when unpacking a cube, as products may have shifted during transport.

Note 1: **IT IS NOT RECOMMENDED TO STACK CUBES ON A JOB SITE.**

Note 2: Some product packaging has limitations on the number of cubes that can be stacked. In this regard, please refer to Permacon's landscaping and masonry product guides for specific product restrictions and/or contact your Permacon representative.

Note 3: Never stack cubes with bags of pins or keys side by side (see Fig. 2).

Note 4: For further information, please contact your regional sales office.
